Additionally, just for your information, I anticipate EPA and possibly DEQ will be sampling in some off-site areas next week (we do not expect to need access to WWW property).
Thanks,

That's fine. How about the morning of March 8? I can do a call anytime that morning.
Mike

Hello Mike,

I'd be glad to participate in a call but due to my schedule it may have to wait until next week - is that agreeable? thanks,

Tom M. Williams

Tom, I would like to have a call with you, PC and Dave Novak to discuss the following:

1) Has EPA decided to not pursue a removal action at the Rockford, Michigan site? Now that we have all the new data there does not appear to be any basis for a removal action. There is, quite simply, nothing to remove. Wolverine already performed removal actions at two locations on the site and we have answered EPA's questions about those removals.

2) What is the agenda for the April 24 public meeting? My understanding is that Joe Walczak will make a presentation of the PA at that meeting. Is EPA expecting Wolverine to make a presentation? If Wolverine would like to make a presentation, may we do so?

If you would rather not do a call, please let me know the answers to these questions.

Thanks, Mike
